What was our project about?

Lately schools have developed a new program where students are to read a book and after reading it they take a test on it. This will give them their reading level and throughout the year they try to raise it. Each grade had a goal the students are expected to reach by the end of the year. The only way to reach this goal is to read several books. Sometimes it is not so easy for the students to go to the library to check out a new book. It is more convenient at times for the student to be able to check a book out of their classroom library. So when we asked the 4th grade teacher at Pea Ridge if they needed any help with anything they asked if we would like to raise money for them to enhance their classroom libraries.

Books For A Brighter Future
