Flower Power

INTERMEDIATE ALGEBRA
BARBARA RADEMACHER, INSTRUCTOR
MEMBERS:

- Cassandra Hulshof
- Jami Hoyt
Objectives

- Businesses look better when landscaping is done
- Parents have to find a good daycare to take their children to while they work
- The feel for a place where parents bring their children should be comfortable and safe.
- Our purpose- make the daycare look nice and comforting by landscaping the front of the business.
Tasks completed:

- Took a survey asking different people what kind of flowers are the most appealing and eye-catching
- Worked out front of the Children’s Hour daycare and planted different plants and flowers
- Performed check-lists and statistics for the most appropriate plants for the business
- Collected and counted money from various people willing to donate to our cause.
Plant and Flower facts used:

- The Flowers that were used had to be in a place that could get 8 hours of sun light.
- The flowers were not good in cold environments.
- The flowers that were use were Seed Geranium Petunia, and Dianthus.
Tools used:

- Flowers
- Shovel
- Watering can
- Plant food
- Soil
Amount work done:

- **petunia**
  - Day 3
  - Day 2
  - Day 1

- **dianthus**
  - Day 3
  - Day 2
  - Day 1
The outcome:

- Daycare looked better and we had a lot of fun outside
- A lot of funny memories with the kids helping us
Thanks to:

- The daycare for letting us work on their flowerbeds
- The people who donated money and flowers to us to make it happen.
- And to letting us get to work with kids and make it fun.
