Goals of our EMPACTS project

- Community: To create a curriculum for Berryville Public Schools to educate students on how to create a greener environment for tomorrow
- Curriculum: Through our EMPACTS project we learned to create lesson plans for future classrooms
- Technology: We enhanced our technology skills through the use of computer programs such as Microsoft Word, PowerPoint, and Publisher
- Skills: As a team we learned teamwork, cooperation, initiative, responsibility, ownership
During our visit students completed a lesson about animal habitats. They had to choose an animal and pick a place in the classroom that they would live. The students then answered questions about why they chose this location and would they choose differently if they had the opportunity.

What is EMPACTS?

- Educationally
- Managed
- Projects
- Advancing
- Curriculum
- Technology, and
- Service

Objectives

- Through the use of specially designed lesson plans, students will learn about nature and its components
- Students will learn how to be “green”
- Students will develop a life long appreciation of their natural surroundings and learn to become caretakers of tomorrow’s world
