

1. Fill in the top page and turn BOTH pages in to me right after first printing it. *You may not count any visits before this date.*
2. Turn in both pages every week after the first printing date.

OPTION #'s (All options require a minimum of ¼ hr/day and a maximum of 2 hr/day.)

1. If you start tracking your visits during week 3 and go at least 1 hour/week, you earn 10 points. (≥13 hours needed)
2. If you start tracking your visits during week 6 and go at least 1½ hours/week, you earn 10 points. (≥15 hours needed)
3. If you start tracking your visits during week 9 and go at least 2¼ hours/week, you earn 10 points. (≥16 hours needed)

This credit only applies to **NWACC tutors who** are listed to **tutor YOUR course**. They can be found:

In the **Learning Lab** (CEF 1109) and in the **Math Café** (SC 314). I also qualify as a tutor for these purposes.

**On-line** tutoring appointments can be set up by calling the Learning Lab at (479) 619-4241.

Please SEE MS. OLSON for help filling in this top portion or if you have any questions.

**STUDENT COMPLETES UPON PRINTING (AND TURN IN BOTH PAGES A.S.A.P.):**

Date you first <i>turn in</i> the form: _____ = Option # _____	Ms. Olson's Initials: _____
Student's Name: (PRINT): _____, _____ LAST, FIRST	Semester (circle one), Year: Fall, Spring, Summer, _____
Course Name (circle one): PreAlgebra    Beginning Algebra    Intermediate Algebra    College Algebra Other course (specify): _____	CRN (5 Digit Number): _____ (see your schedule)

**NOTES TO THE STUDENT:**

- A **MINIMUM** of ¼ **HR** per day and a **MAXIMUM OF 2 HR total time per day** COUNTS towards extra credit hours.
- Treat the tutors with kindness and respect. They are neither your dumping ground, nor your miracle the day of the test.
- Don't go in just before a test and expect to have them help you "learn it all" in an hour.
- Don't expect the tutor to lecture material for a class you missed. That is not their job. (If you miss a class: read the text, try the examples, **watch the text-based videos**, and TRY the homework. **Then** approach me or a tutor with questions about it.)
- Tutors in the Learning Lab and Math Café are there for **everyone** (even you). If you need help, you may need to speak up and ask for it. But don't expect hours of private tutoring. (You may get it if you pick the quiet times, but don't count on it every visit.)

**STUDENT COMPLETES** (COMPLETE BEFORE TURNING IN JUST BEFORE THE FINAL EXAM):

Total Hours Completed (= x, with ¼ ≤ x ≤ 2 hr per day) = _____ (copied from the next page).
You don't have to do this all semester to earn some of the possible points. Points will be given based on any percentage of the required hours based on your option number (i.e., if you went 10 hours starting week 4, this is option 2 (rather than 1) and you would receive $10/15 * 10 = 6 \frac{2}{3}$ or 7 points out of the 10, after rounding).
TOTAL POINTS EARNED (total hours/hours required by your option # above*10 - round to the nearest whole point) _____

Please SEE MS. OLSON for help filling in this bottom portion or if you have any questions.
