

Calculus I Tentative Assignments – Fall 2009

Assignments are likely to change so make sure you pay attention to announcements in class and check your NWACC email regularly. You are responsible for all problems regardless of whether there is a corresponding problem available in MyMathLab. Make sure you work those with no MML match from the hard copy of the text.

You are responsible for all assignments even if you miss class!! Of course, you may ask for help **after you have attempted the assignment on your own** but do not expect either your instructor or the tutors in the labs to give you a lecture over missed material.
